A CONNECTED SYSTEM FOR FARM-TO-TABLE RETAIL

From farm to table, on one system.

How The Farm Story can run purchasing, stock, the store, the website, delivery, customers and accounts together, simply.

Prepared for

The Farm Story

October 2026 · Confidential

BEFORE WE START

Today is a conversation, not a presentation.

We'll listen first, show what's possible, then agree what matters most.

1 LISTEN

Understand your business

Your store, products, team and what slows you down.

2 SHOW

See how one system could run it

Plain pictures, no jargon. Stop us any time.

3 DECIDE

Agree priorities and next steps

What comes first, what can wait, what we need from you.

About 60 minutes. Pages marked **YOUR INPUTS** are for you to tick or write on, with a finger or a pencil.

AGENDA

Six short chapters

Tap any chapter to jump straight to it.

1

Your business

What we understand, and what hurts today

2

The idea

One connected system, in one picture

3

What it does

Buy, sell, deliver, know, account

4

What changes

The difference you will see and measure

5

How we build

Phases, what we need, what is included

6

Inputs and next steps

Your answers, priorities, what happens next

Reference pages (all nine modules, compliance) are at the end.

Jump to reference pages

YOUR BUSINESS · 1

What we understand so far

Please correct anything that isn't quite right.

2019

The Farm Story brand begins

September 2026

New store opens: clean, modern, premium

Next

Where do you want to be in two years?

- **Fresh fruits and vegetables**
- **Naturally grown, high quality**
- **A premium, modern shopping experience**
- **Store today, online next**

IS THIS RIGHT?

☐ Yes, this is us ☐ Mostly, with changes: .....

.....

YOUR BUSINESS · 2

Fresh produce is a different business

Four realities every farm-to-table store lives with.

It perishes

Every unsold kilo is margin you have already paid for.

☐ This hurts us

Prices move

Supplier rates change with the season, sometimes daily.

☐ This hurts us

It is sold by weight

Weighing, labels and the bill must always agree.

☐ This hurts us

Two doors, one stock

Store and website must never sell the same kilo twice.

☐ This hurts us

Tick the one or two that hurt most today.

YOUR INPUTS 1 / 9

About your business

Rough numbers are perfect. Write or tick.

Stores today .....

Stores planned in two years .....

Bills on a typical day .....

Bills on a busy day .....

Approximate number of products .....

Share sold loose, by weight (%) .....

Counter staff .....

Stock / back-store staff .....

Delivery staff .....

How do you bill today?

☐ Billing software ☐ Manual / Excel ☐ Other

Online sales today

☐ None ☐ WhatsApp / Instagram ☐ Website

YOUR INPUTS 2 / 9

Where does it hurt today?

Tick everything that sounds familiar.

- [ ] Stock numbers never match
- [ ] Wastage is not tracked
- [ ] Expiry surprises
- [ ] Billing is slow at peak hours
- [ ] Mistakes on weighed items
- [ ] Supplier rates are hard to track
- [ ] I don't really know my customers
- [ ] Online orders are messy
- [ ] Deliveries are hard to track
- [ ] GST and accounts take too long
- [ ] No clear profit numbers
- [ ] Month-end reports take days

THE ONE THING YOU WOULD FIX FIRST, IN YOUR WORDS

THE IDEA

One connected system

Everything starts from one product list and one live stock.

BUY AND STOCK

- Suppliers and orders
- Goods received, batches
- Expiry and wastage
- Barcode labels

SELL

- In-store billing
- Online website
- Same stock, same prices

SERVE AND KNOW

- Orders and delivery
- Customer profiles
- Loyalty and follow-ups

ACCOUNT AND DECIDE

- Accounts and GST
- Profit and loss
- Dashboards, reports

Insights guide smarter buying

ONE product list · **ONE live stock** · **ONE customer record** · **ONE set of books**

THE IDEA

Follow one crate of tomatoes

Each step is entered once. Everything else updates itself.

Order

100 kg ordered from the farm at the agreed rate

Receive

Batch, expiry date and cost recorded

Label

Price and weight labels printed

Sell

Store and website sell from the same stock

Deliver

Packed, weighed, dispatched, tracked

Know

Books, profit and wastage update

AND WITHOUT RE-TYPING, THESE UPDATE TOO

- **Stock levels**
- **Customer record**
- **Accounts and GST**
- **Dashboard**

WHAT IT DOES · 1 OF 5

Buy and stock

Know what came in, how fresh it is, and what is left.

Purchase and suppliers

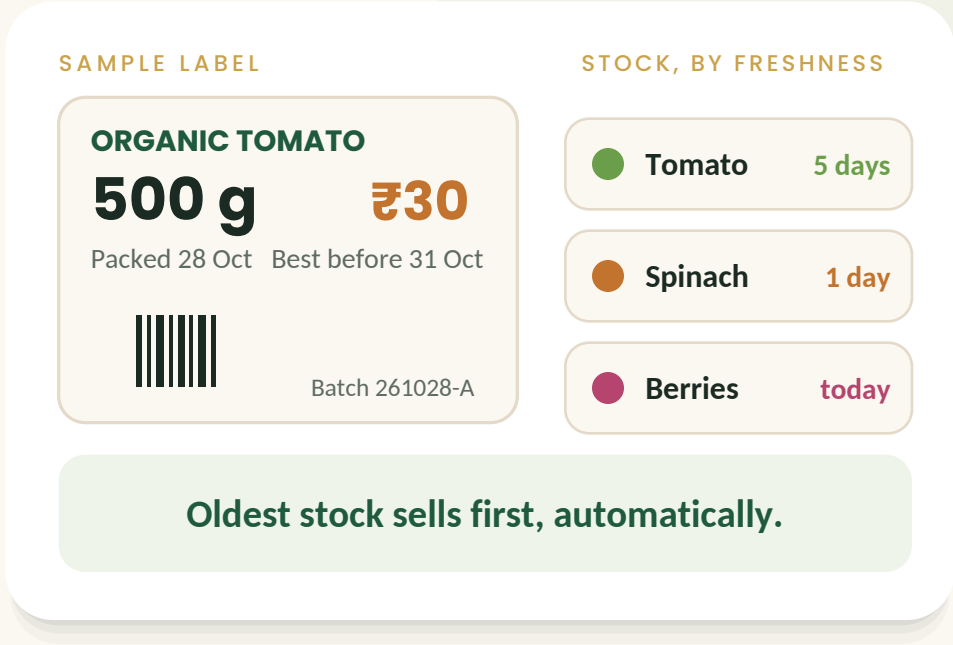

Orders, receipts and rates in one place. Compare suppliers and track what you owe.

Inventory and stock

Stock by batch with expiry dates. Wastage recorded with a reason.

Barcode and labels

Price, weight and batch labels in a click. Billing gets faster.

QUESTION FOR YOU

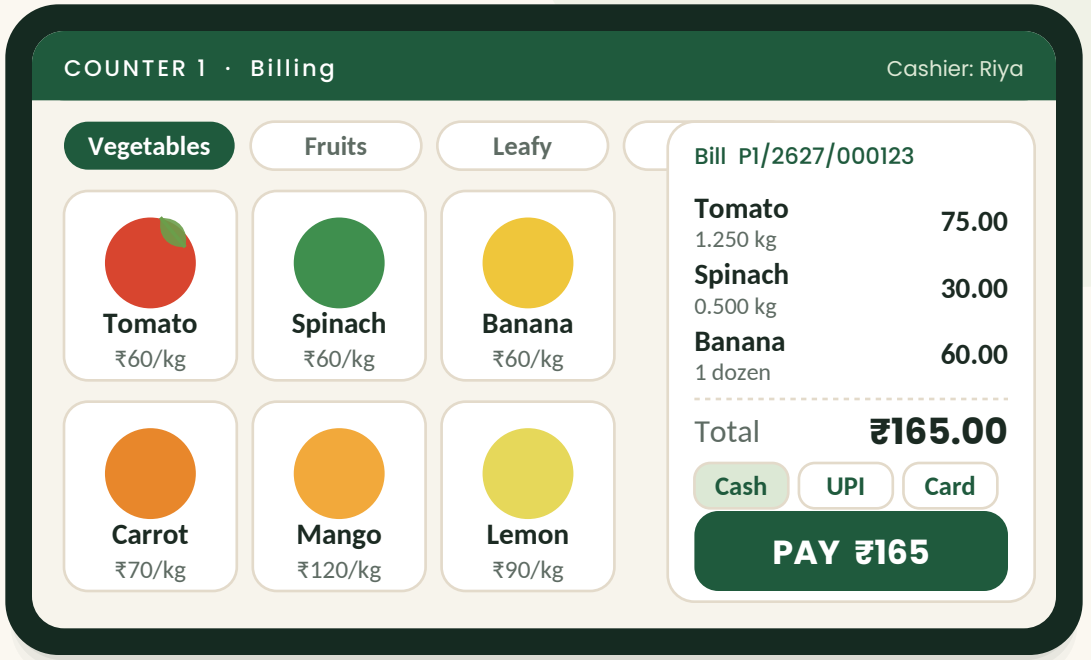

Walk us through a delivery from the farm: who receives it, what gets checked, what gets written down?

WHAT IT DOES · 2 OF 5

Sell in the store

POS and billing: fast at the counter, exact at the end of the day.

- Scan or weigh, and bill in seconds
- Cash, UPI and card recorded properly
- GST invoice and receipt printed
- Keeps billing even if the internet drops
- Cashier shifts and cash reconciled daily

Illustrative screen

QUESTION FOR YOU

What slows your counter down most at peak hours today?

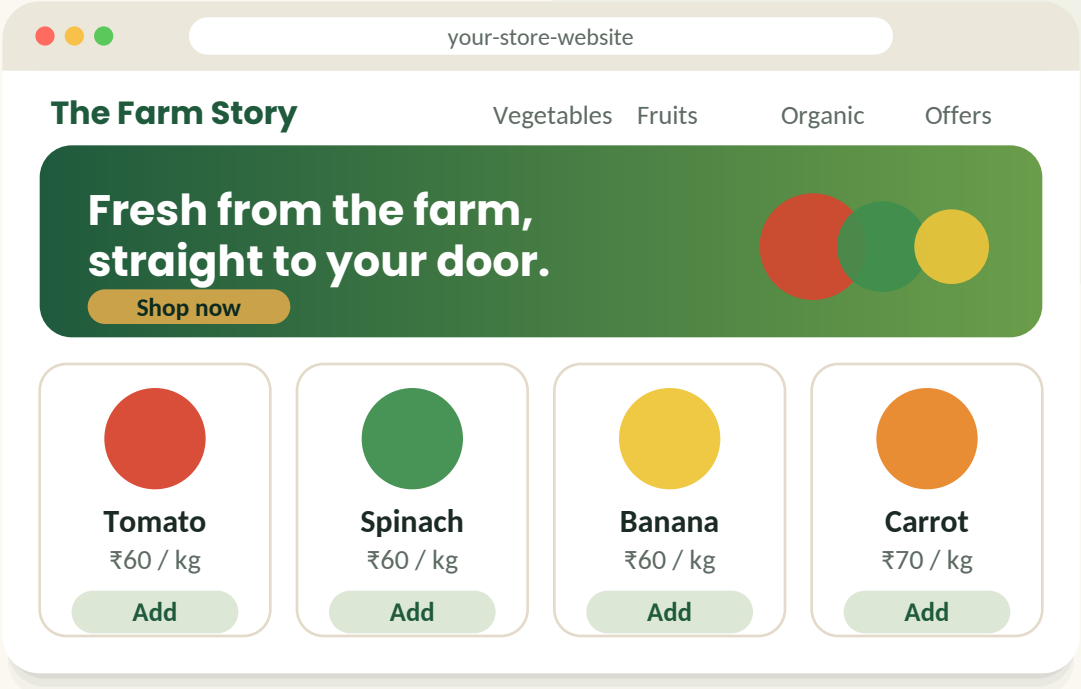

WHAT IT DOES · 3 OF 5

Sell online

A premium storefront that sells from the very same stock.

- Catalogue always in step with the shop
- Sold-out items update automatically
- Customers choose delivery area and time slot
- Pay by cash on delivery, at the store, or UPI confirmed by your team

Later, as a separate step: online payment gateway and automatic WhatsApp updates.

Illustrative screen

QUESTION FOR YOU

Where would you deliver, and what should ordering feel like?

WHAT IT DOES · 4 OF 5

Serve and keep customers

Deliver well, then remember who your best customers are.

Orders and delivery

- New, packed, out, delivered: always tracked
- Weigh at packing, so the final bill is exact
- Delivery slots, areas and charges
- Cash on delivery settled daily

Customers and loyalty

- One profile for every customer, store or online
- Purchase history and favourites
- Loyalty points and offers
- Reminders to bring lapsed customers back

QUESTION FOR YOU

How do you stay in touch with your regular customers today, and what do you wish you could do?

WHAT IT DOES · 5 OF 5

Books and business insight

Know where you stand, any morning, on any device.

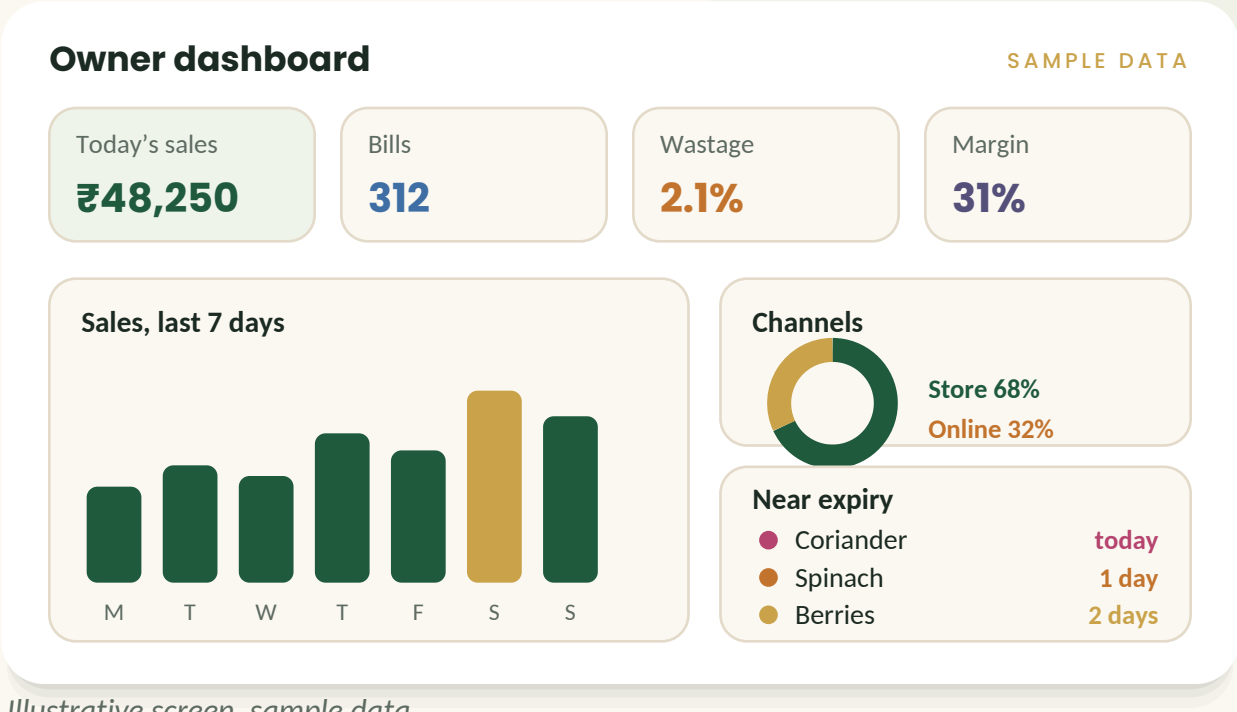

Accounts and GST

Every sale and purchase posts itself. GST summaries ready for your CA.

Analytics

Best sellers, margins and wastage, by product, supplier and channel.

Nothing to re-enter: it is all built from what happens at the counter and the dock.

Illustrative screen, sample data

QUESTION FOR YOU

Which three numbers would you want to see every morning?

YOUR INPUTS 3 / 9

What matters most?

One tick per row. This decides what we build first.

	Must have first	Good to have	Later	Not needed
Purchase and suppliers	☐	☐	☐	☐
Inventory, batches, expiry	☐	☐	☐	☐
Barcode and labels	☐	☐	☐	☐
In-store billing (POS)	☐	☐	☐	☐
Online website	☐	☐	☐	☐
Orders and delivery	☐	☐	☐	☐
Customers and loyalty	☐	☐	☐	☐
Accounts and GST	☐	☐	☐	☐
Dashboards and reports	☐	☐	☐	☐

Anything missing from this list?

WHAT CHANGES

What changes for the business

Six differences you will notice.

Less wastage

Expiry alerts and batch tracking mean fewer surprises.

Better margins

See true profit by product, supplier and channel.

More sales

Store and website sell from one stock. No double entry.

Loyal customers

Know who buys what, and bring them back.

Calmer operations

Fewer mistakes, faster billing, clear delivery steps.

Clean books

GST records and accounts ready without month-end panic.

Every 1% of purchases saved from spoilage drops straight to profit.

The cost is already paid. You only need to see it to reduce it.

WHAT CHANGES

How we will know it is working

Pick the numbers that matter. We measure them from day one.

		TODAY	GOAL IN 6 MONTHS
1	Wastage, as % of purchases		
2	Items out of stock, per week		
3	Average time to bill a customer		
4	Repeat customers, % of all customers		
5	Online share of total sales		
6	Days to close the month-end books		

Don't know yet? No problem: we capture a baseline in the first 30 days.

WHAT CHANGES

Everyone sees only what they need

Roles keep things simple for staff and safe for you.

Owner

Everything: dashboards, approvals, prices

Manager

Daily operations, discounts, stock approvals

Cashier

Billing only, no cost prices visible

Inventory executive

Purchasing, receiving, stock and labels

Packing and delivery

Pick, pack, dispatch, on a phone

Accountant / CA

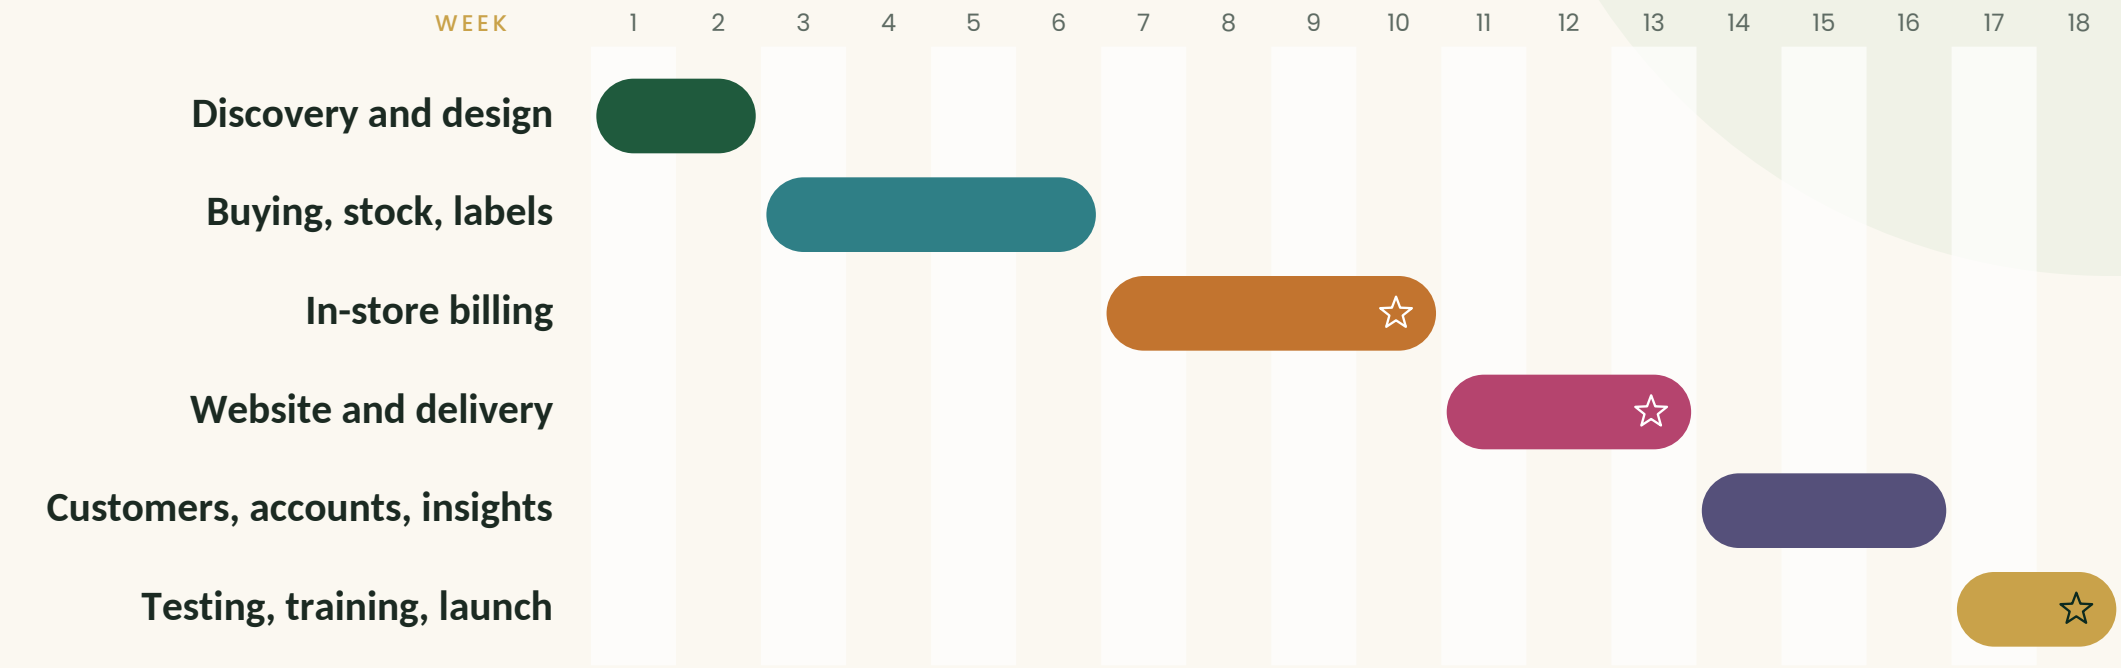

Books, GST reports, exports (view only)

Team today: counter ..... stock ..... delivery ..... accounts .....

HOW WE BUILD

Built in phases, live early

Your store starts benefiting at week 10, not week 18.

Go-live 1 · week 10
The store runs on the system

Go-live 2 · week 13
Website and delivery are live

Go-live 3 · week 18
The complete platform

HOW WE BUILD

What is in, and what comes later

A focused first release, with the doors left open.

IN THE FIRST RELEASE

- Purchase, stock, batches and expiry
- Barcode and label printing
- In-store billing with GST invoices
- Website: COD, pay at store, UPI confirmed by staff
- Order packing and delivery tracking
- Customer profiles and loyalty
- Accounts and GST summaries
- Dashboards and reports

GREAT NEXT STEPS (tick any that excite you)

- [ ] Online payments (payment gateway)
- [ ] Automatic WhatsApp order updates
- [ ] Mobile apps for customers and riders
- [ ] Weekly produce subscription boxes
- [ ] Farm-to-table QR: scan to see farm and harvest date
- [ ] A second outlet
- [ ] Demand forecasting from your sales history

HOW WE BUILD

What we will need from you

Small asks, big difference. Tick what you already have.

- [ ] Product list (even an Excel sheet)
- [ ] Supplier list and usual rates
- [ ] Current price list
- [ ] Logo, brand colours and photos
- [ ] Hardware: scanner, printers, scale
- [ ] GST details and HSN codes (via your CA)
- [ ] One decision-maker for quick approvals
- [ ] 30 minutes a week for review

✓ Don't have something yet? **We will help you create it.** Nothing here should stop us from starting.

HOW WE BUILD

Built to be dependable

Four promises behind the screens.

Keeps billing offline

If the internet drops at the counter, bills are saved and synced when it returns.

Your data, backed up

Daily encrypted backups, kept off-site, with restores tested.

Right people, right access

Role-based access, and a trail of who changed what.

You own what we build

Full source code and documentation handed over.

HOW WE BUILD

Questions we often hear

Short answers, so nothing stays confusing.

Can we start small?

Yes. The store goes live first (week 10); the website follows.

What if the internet drops?

Billing keeps working and syncs when it returns.

What about our existing data?

We import product, supplier and customer lists from Excel.

Can my staff manage it?

Simple screens for each role, with training included.

Can it grow with us?

Built for a second outlet; apps and online payments can be added.

Who owns it?

You do. We hand over the full source code and documentation.

YOUR INPUTS 4 / 9

Products and suppliers

Tell us how stock comes in today.

How many suppliers / farms? .....

How do you order from them?

- [ ] Phone
- [ ] WhatsApp
- [ ] In person
- [ ] Other

Do you track expiry today?

- [ ] Yes
- [ ] Partly
- [ ] No

Do you record wastage?

- [ ] Yes
- [ ] Partly
- [ ] No

Organic certificates?

- [ ] Yes
- [ ] Some
- [ ] No

ANYTHING SPECIAL ABOUT YOUR PRODUCE OR SUPPLIERS?

YOUR INPUTS 5 / 9

Selling and hardware

What happens at the counter today.

Billing counters .....

Payment modes you accept

- [ ] Cash
- [ ] UPI
- [ ] Card
- [ ] Credit

Bill style

- [ ] Thermal receipt
- [ ] A4 invoice
- [ ] Both

Offers or discounts you run .....

Internet at the counter reliable? .....

Do you already have...

Barcode scanner	[ ] Have	[ ] Need
Receipt printer	[ ] Have	[ ] Need
Label printer	[ ] Have	[ ] Need
Weighing scale	[ ] Have	[ ] Need

Scale model .....

NOTES

YOUR INPUTS 6 / 9

Online and delivery

How should the website and deliveries work?

Online selling at launch?

- [ ] Yes
- [ ] Later

Delivery area (km / pincodes) .....

Who delivers?

- [ ] Own staff
- [ ] Outsourced
- [ ] Both

Delivery charge

- [ ] Free above ₹____
- [ ] Flat fee
- [ ] By area

Minimum order value .....

Payment for online orders

- [ ] Cash on delivery
- [ ] UPI to you
- [ ] Pay at store

Delivery time slots wanted .....

Online orders per day (guess) .....

NOTES

YOUR INPUTS 7 / 9

Customers and loyalty

How well do you know your customers today?

Do you collect phone numbers today?

- [ ] Yes
- [ ] Some
- [ ] No

How do you reach customers?

- [ ] WhatsApp
- [ ] Calls
- [ ] Instagram
- [ ] SMS

Loyalty idea that appeals

- [ ] Points on every bill
- [ ] Silver / gold tiers
- [ ] Birthday offers
- [ ] Not now

IF YOU KNEW YOUR CUSTOMERS BETTER, WHAT WOULD YOU DO WITH THAT?

YOUR INPUTS 8 / 9

Accounts and GST

So the books fit how you already work.

Who does your accounts?

- [ ] In-house
- [ ] CA / accountant
- [ ] Both

Tools used today

- [ ] Tally
- [ ] Vyapar / other
- [ ] Excel

GST registered?

- [ ] Yes
- [ ] In process
- [ ] No

GST registered in which state(s)? .....

Your products are mostly...

- [ ] Fresh (nil-rated)
- [ ] A mix with packaged

REPORTS YOU WOULD WANT EVERY MONTH

YOUR INPUTS 9 / 9

Success, timing and decisions

The last one. This shapes the plan.

SIX MONTHS AFTER LAUNCH, SUCCESS LOOKS LIKE...

MY BIGGEST CONCERN ABOUT DOING THIS

Who else needs to approve? .....

Ideal date for the store to go live .....

Comfortable investment range

- [ ] Under ₹5 lakh
- [ ] ₹5 to 7 lakh
- [ ] ₹7 to 10 lakh
- [ ] Above ₹10 lakh
- [ ] Let's discuss

How quickly do you want to decide?

- [ ] This week
- [ ] This month
- [ ] After more talks

ANYTHING WE HAVE NOT ASKED?

YOUR INPUTS · NOTES

What we heard today

We will fill this in together before we finish.

TOP THREE PRIORITIES

CONCERNS AND RISKS

DECISIONS MADE TODAY

OPEN QUESTIONS AND WHO FOLLOWS UP

INPUTS AND NEXT STEPS

What happens next

Four simple steps to get started.

1 YOU

Share your details

Product list, supplier rates, hardware details

By .....

2 TOGETHER

Discovery workshop

About two hours, at the store, to map real workflows

By .....

3 US

Final scope and quote

Written plan, timeline and price, based on your inputs

By .....

4 YOU AND US

Approve and kick off

Plan signed off; Phase 1 begins

By .....

Our next meeting: date ..... time and place .....

Thank you.

Let's build something as fresh as your produce.

Fresh from the farm. Smart from the start.

THE FARM STORY

Reference pages

REFERENCE

The nine modules at a glance

Purchase and suppliers

Purchase orders, goods received, supplier rates and payables

Inventory and stock

Batches, expiry, wastage, repacking, stock-take

Barcode and labels

Product, weight and batch labels; reprint trail

POS and billing

Fast counter, GST invoices, shifts, returns, offline-ready

E-commerce website

Catalogue, slots, checkout, account, live stock

Orders and delivery

Pick, pack, weigh, dispatch, track, COD settlement

Customers and loyalty

Profiles, history, points, offers, follow-ups

Accounts and GST

Auto postings, registers, expenses, profit and loss

Analytics and reports

Dashboards, margins, wastage, scheduled reports

REFERENCE

Built for Indian retail compliance

What the system records so your CA has an easy month-end.

- GST tax invoices and bills of supply with HSN and rate split
- Nil-rated fresh produce and taxed packaged goods, side by side
- Sales and purchase registers, and input-tax summaries
- GSTR-1 and GSTR-3B summary exports for your CA
- Gap-free invoice numbers per financial year
- Period locking and a full audit trail

WHAT STAYS WITH YOU AND YOUR CA

• Filing on the GST portal remains with you and your CA; we prepare the numbers.

• E-invoicing and e-way bill connections can be added later if your turnover or movement of goods requires them.

• Final tax treatment of your items (including mixed baskets) is confirmed with your CA during discovery.
